

**Robert Lincoln**

Funeral services were held at the Park Avenue Congregational Church, Tuesday, at 2 p.m. with interment at Mt. Pleasant cemetery for Robert Dana Lincoln, 18, who died January 1 at his home, 23 Linden street, following a long illness.

A senior at Arlington high school he was also a member of the Arlington DeMolay.

Surviving are his mother and father, Frank and Frances (Per-

kins) Lincoln; a brother, Kenneth, now in Germany; a sister, Pauline, a student at Junior High West; and grandparents Mrs. Sarah Lincoln, Houlton, Maine; and Dr. and Mrs. Maurice Perkins, of Machias, Maine.

**BIRTH**

To Mr. and Mrs. Ralph E. Hatch (Virginia L. Britt) of 20 Draper avenue, Arlington, a girl on December 28, named Hope Louise at Symmes Arlington Hospital.

## Predict Record 41,000 Deaths 2,000,000 Injuries On Roads

41,000 deaths and 2,000,000 serious injuries will occur on American highways during 1956 unless an aroused public immediately takes constructive steps to end accidents. This prediction was made today by Arthur S. Johnson, Director of the Institute for Safe Living, in his annual New Year's report to the Institute's Advisory and Directive Staff.

Mr. Johnson, Safety Engineering Vice President of the American Mutual Liability Insurance Company, made his prediction on the basis of current and prospective highway conditions and traffic behavior in 1955.

"More drivers, more cars on the road, more congestion, more bad driving, more frustration lead inevitably, under the present state of mind of the driving public, to one conclusion — more accidents," Mr. Johnson said.

In his report Mr. Johnson recommended a comprehensive ten-point highway safety program, adding: "No one wants to be a forerunner of bad news, but all of this bad news is going to happen unless the public gets made

enough at useless slaughter to take the steps necessary to stop accidents."

His ten-point program follows: Keep up the pressure for new highway construction. (Many thousands of miles of secondary roads still need widening, straightening, and repaving.)

Support driver training in your community and state. (Only eleven states have what can be considered top-level driver training courses in public and private high schools, yet driver training is one of the surest ways of developing skilled, safety-minded drivers.)

Encourage every move to have only safe cars on the road by promoting effective state inspection programs. (Recent National Safety Council studies show one in every five cars in need of maintenance to parts effecting safe operation.)

Abolish the widespread practice of ticket-fixing. (Disregard of traffic regulations is making us a nation of scofflaws.)

Help the community organize all its agencies — police, firemen, schools, town fathers, newspapers

and clubs — into a coordinated force for safer driving.

Support community and state efforts to expand street and highway policing forces. (Estimates show only 5,000 law-enforcement officers engaged in traffic-control work for 3,000,000 miles of paved highways — one for every 600 miles!)

Encourage nationwide adoption of uniform traffic laws.

Believe in, learn and practice courtesy on the highway. (Let's adopt a "drive and let drive" principle.)

Encourage safety engineers and others to intensify their attention to human factors in car design, highway design, and traffic regulations.

Let us become a nation of better drivers for our lives are in the drivers' hands.

(Let each driver learn how to control the power at his hand, let him learn what causes accidents and how to avoid them, let him learn the rules of the road and obey them.)

**BIRTH**

To Mr. and Mrs. John A. Christensen, Jr. (Mildred L. Spraker) of 100 School street, Arlington, a boy on December 27, named John Albert, 3rd at Symmes Arlington Hospital.

## Arlington Man Patents Sealing Machine, Method

(Exclusive to the News)

Richard S. Wellons of Arlington and Arthur S. Russell, Chelmsford, Mass., were the recipients on December 13, 1955 of U. S. patent No. 2,726,707, entitled "Sealing Machine And Method".

Plastic food bags are generally made from sheets or tubes of thermoplastic material. In the case of sheets, their longitudinal edges are lapped and are fused together by heat and pressure to form a tube, one open end of which is sealed by heat to form the bag. In the case of tubes, an appropriate length is cut from a roll of flattened tubing; and one end is sealed by fusion to produce the bag. It should be noted that the sealing operations are generally performed by heated jaws or by high frequency electric current.

In the use of these bags, the food processor, after inserting the foodstuff, may seal the bag by heat fusion, but more commonly he does it by twisting its neck and securing it with a slip or tie.

According to Messrs. Wellons and Russell, these plastic bags suffer from the disadvantage that their sealed seams are relatively weak. This presents a serious problem because food processors may occasionally find that a heavy article, such as a ham or turkey, drops through an end seam which is not strong enough to stand the weight. This occurrence in a high production food processing line is disrupting and expensive.

To overcome this limitation, Messrs. Wellons and Russell have devised a method and apparatus whereby the seam area of the bag undergoes a preliminary heating until it reaches a highly plastic, flowable state, following which it is subjected to the full sealing pressure. Their process also provides for forcing some of the plastic flowable material backwards so as to form a thickened reinforcement along the interior margin of the seam.

It is claimed that the practice of this invention results in bags which have bursting values more than twenty per cent greater than those made in accordance with prior procedures.

This patent has been assigned to W. R. Grace and Company.

## Now You Can Become An ARMY RESERVIST

Youths 17-18½ years old can meet military obligation  
with civilian life practically uninterrupted

Ever since Lexington and Concord, the American civilian soldier has been there when he was needed. In the early days he was a Minute Man, and now he is called a Reservist. He's the man who gives up his personal liberty for a few hours each week to insure that his family and neighbors will enjoy freedom forever.

Now, for the first time, if you are a young man between the ages of 17 and 18½ you can become a Reservist in the 94th Bay State Army Reserve Division, instead of being drafted into the Active Armed Forces. Through the Reserve Forces Act of 1955, you can fulfill your required military obligation by becoming a Reservist and continue your civilian pursuits practically uninterrupted.

If you are in high school, you and your classmates are urged to join a unit of the 94th Bay State Division in or near your home town. You can volunteer for six months'

active duty training and 7½ years of duty as a Reservist — and your six months' active duty training doesn't begin until you graduate, discontinue your schooling, or reach the age of twenty — whichever occurs first. Then you will be able to make definite plans for your future as a civilian. The alternative, of course, is waiting to be drafted into the Active Armed Forces for two years, followed by four years in the Reserve. As a member of the Bay State Division you attend 48 paid drills a year and also go on a two weeks' summer encampment. You can gain valuable promotions and retirement benefits.

The choice is yours. If you prefer to fulfill your military obligation with friends at home in Massachusetts, write for further information to the Commanding General, 94th Bay State Division, Army Base, Boston 10, Massachusetts — or contact the Bay State Division unit located nearest your own community.

The Bay State Division unit nearest you is the 2nd Battalion, 301st Infantry, meeting at the Mary Lee Burbank school on School Street, Belmont every Wednesday, at 7:30 P.M.

## NEW YEAR'S RESOLUTIONS TO "GUARD YOUR HEART"

Good resolutions for 1956 should begin with a determination to let facts—rather than worrisome fears—govern your attitude toward the heart diseases.

"If you have any doubt about the condition of your heart, consult your doctor," says the Massachusetts Heart Association. "If he finds that there is nothing wrong with your heart and circulation, needless anxiety can be eliminated. If a disorder is revealed, suitable treatment can be undertaken immediately for the patient's benefit."

As a prelude to the 1956 Heart Fund campaign, which is to be conducted here and in thousands of other communities throughout February, the Massachusetts Association proposed that all citizens place these resolves on their New Year's list:

To learn the facts about the heart and its diseases, and to avoid needless fears and worry.

To shun self-diagnosis in favor of regular heart and health checks by your physician.

To guard against excess weight, remembering that overweight overworks your heart.

To get the sleep and rest you need, because rest lightens the work your heart has to do.

To keep fit by exercising moderately and regularly. But, remember act your age and don't try to prove that you have the physical stamina you had 10 or 20 years ago. Strenuous exercise may not harm a healthy heart, but the danger is real if your heart and circulation are not in good order.

To be alert to the dangers of respiratory infections which are more common during the winter months, and may place an added strain on the heart. Prompt medical treatment for such infections is important, especially for "strep" throat, which may be the forerunner of rheumatic fever and rheumatic heart disease in children.

The Association pointed out that hope and optimism are increasingly warranted by the dramatic advances in diagnosis, treatment, prevention and cure achieved in recent years as the result of heart research, and that where heart disease was once regarded as a sentence of death or life-long invalidism, it is now recognized that some forms of heart disease can be prevented, a few can be cured, and that almost all cases can be helped by proper treatment, especially after early diagnosis.

A final resolution proposed by the Massachusetts Heart Association is as follows:

"Resolved, that I will do all within my power to advance the nation-wide fight against heart disease by supporting the 1956 Heart Fund."

## Babson Discusses

(Continued From Page One)

businessman, I doubt if he could be elected. Next in order I would select Thomas E. Dewey, former governor of New York. He probably is the ideal age, namely 53; but the party would be loath to nominate one who had been defeated twice, even though he is an excellent administrator. My fourth choice would be Secretary of State Dulles; but he is two years older than Mr. Eisenhower. The other active Republican aspirants are Senator William Knowland of California, 47, Presidential Assistant Harold Stassen of Pennsylvania, who is 48, and Governor Christian Bente of Massachusetts, who is 60.

### WHAT ABOUT DEMOCRATIC STATISTICS?

Now let us apply statistics to the possible Democratic rivals. If the nominating convention were to be held this month, I am sure that ex-governor Stevenson of Illinois (55 years old), candidate four years ago, would get the Democratic nomination. If Eisenhower should not run again, Stevenson would have a good chance of election; but not against Eisenhower as a candidate. This is in my humble opinion. As for Governor Harriman of New York, he surely could be featured as a "malefactor of great wealth" more than could Mr. Humphrey. Harriman probably never "earned a dollar in his life." He inherited his millions from his father, who was America's greatest railroad giant; while Humphrey started with nothing and earned his present wealth through developing coal, iron, and other mines. Let me say, however, that Harriman has probably had the best training and experience for the Presidency of any possible Democratic candidate. I have great respect for his knowledge and for his contacts in national and world politics. He is a "New Dealer" — which would help him with labor and probably with the great American public. Statistically the country is Democratic. Republicans should not forget this in their enthusiasm for Ike.

Among others commonly suggested, irrespective of party, are Kefauver (52), and Clement (55), both of Tennessee; Dirksen (60) of Illinois; Meyner (47) of New Jersey; Stratton (41) of Illinois; Symington (54) of Missouri; and Williams (44) of Michigan. I will also add that Ex-President Truman, at 71, may be a candidate. So much for statistics.

### CONSIDER PHOTOGRAPHY

This is an age of photographs. The successful magazines—such as Life and Look—are almost 98 per cent photographs. Television is 96 per cent, the movies are 98 per cent photographs. Ike takes wonderful photos and his smile alone is worth millions of votes. But photography is even used by us statisticians to forecast conditions. We can often predict what a man will do by studying the "setting" in which he allows his photo to be taken. Consider the following as evidence that Ike and Mrs. Dowd want to be in the White House for four years, irrespective of what Mamie may want.

If Ike did not want to run again, he would have been wheeled onto the airplane which took him from Denver to Washington, in a wheel chair. This would have helped him in his desire for four years of quiet life at Gettysburg. But no, he ran up the airplane ramp like a young colt and waved to the people. He did the same upon arrival at Washington and Gettysburg. The plan of his managers is to have the voters entirely forget his illness. Watch the photos of him from now on. They will tell the story.

## Arlington Pair Among Deputies

Among the 93 grand deputies of Massachusetts Grand Lodge, Order of Sons of Italy, named today by John Guarno, East Boston, grand venerable, are Mrs. Milvina Ranauro and Angelo Micchichi, both of Arlington.

Mrs. Ranauro has been assigned to the Somerville Sons of Italy Lodge, and Micchichi to the Somerville No. 1579 Lodge. There are 131 lodges in the state with more than 22,000 members.

### OPEN HOUSE

Among the guests attending open house Christmas night recently at the home of Mr. and Mrs. Carl Thatcher, 17 Walnut Court, Arlington, were Miss Helen Fairley of Lexington, Mr. and Mrs. H. Collier of Boston, Mr. and Mrs. N. Cowan of Arlington, and Mrs. Murphy and her daughter of Arlington.

Arlington's, more or less unpublicized pucksters, held a share of first place in the G. B. I. hockey league after a 5-0 triumph December 28. The winner's, to that point, had put together a 3-0 record, tying them for first place with Melrose, also 3-0.

While Belmont and Melrose have been getting most of the headlines in the first three contests, Belmont as defending loop champion and Melrose as a prominent contender, Arlington has been gaining stature with convincing wins, thanks to the outstanding goaltending of John Apple, who has allowed but one marker in three games.

The locals kept pace with the Melrose sextet by walloping Cambridge Latin 5-0, while Melrose was handing Belmont its first league loss in two years, 7-0.

Arlington scored three times in the opening period and added a brace of markers in the middle stanza.

Johnny Wilson scored the first goal for the Arlingtonites at 3:02 of the first period, with Dave Mahoney getting an assist.

John Riley moved the locals out front 2-0 with a marker at 6:33 of the same period assisted by Mahoney and Cronin. Bob Bowser tallied the third Arlington goal of the period at 7:47.

Mahoney, with two assists to his credit added a goal at 4:09 of the second period. Marty Blaffer scored Arlington's final goal at 9:56 of the middle stanza.

The purifying power of true prayer will be set forth in the Lesson-Sermon, entitled "Sacrament" at Christian Science services this Sunday.

Bible passages will include the counsel of Christ Jesus regarding prayer (Matt. 6:6): "But thou, when thou prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly."

Continuing the explanation of prayer, a correlative passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (15:10): "To enter into the heart of prayer, the door of the erring senses must be closed. Lips must be mute and materialism silent, that many may have audience with Spirit, the divine Principle, Love, which destroys all error."

The Golden Text is from Psalms (51:10): "Create in me a clean heart, O God; and renew a right spirit within me."

Tuberculosis Committee Concerned Over "Lag"

Christmas Seal reminders are most deserving. When we contemplate the ravages of tuberculosis the fact that among infectious diseases it is the most devastating to which the human family is subject, the need for funds to combat the disease is great.

Modern knowledge about tuberculosis has drastically cut the number of deaths from the disease, and the death rate will continue to drop as scientific research learns better ways of treating TB. However, we are not fighting the spread of the disease and preventing the development of new cases as successfully as we are fighting death. This is no time to slacken our efforts. To make full use of the advantage we have gained, we must carry on the fight against tuberculosis with increased strength.

Shown many times in the past — that they are indeed, good neighbors. Through the generous purchase of Christmas Seals they can aid the year-round fight against tuberculosis in this community.

I wish to thank all residents who have already made their Christmas Seal returns. I am confident that all our residents will do their part to make the New Year a healthier and happier one," Dr. Wilson concluded.

Contributions may be sent to Leonard Bedford, Treasurer of the Arlington Tuberculosis Committee, Harvard Trust Co., 655 Massachusetts Ave., Arlington.

In connection with this letter, Town Clerk Golden sent the following letter to Mr. Yeames:

Mr. Arthur O. Yeames  
4 Kensington Road  
Arlington 74, Mass.  
Dear Mr. Yeames:

I am in receipt of your recent letter wherein you advised of your decision not to be a candidate for election as a Town Meeting Member from Precinct 6 in the coming Town Election, after having served continuously in that capacity for a total of thirty-five years since March 7, 1921, a long-time record of service of which you may be justly proud.

For the Town of Arlington, which you have served faithfully and well in this and many other capacities over the years, during which the community has grown from 18,636 to 47,148 persons to become the twentieth largest municipality in Mass., I express deep gratitude and offer good wishes to you for the future.

Sincerely yours,  
James J. Golden  
Town Clerk

Edward T. Cullen son of Mr. and Mrs. Edward J. Cullen of 16 Henderson street, Arlington, who is scheduled to complete recruit training January 3 at the Marine Corps Recruit Depot, Parris Island, S. C.

## High Schoolers

### Like To Earn Money

Teen-agers still like to earn money, and do well at it, as revealed by a survey made recently by the guidance department at Arlington High School. Slightly over 30 per cent of the students hold jobs outside of school time and earn a respectable sum of money. This is exclusive of any who may have held temporary jobs during the Christmas rush.

There were 360 students holding jobs, and the average pupil put in 17.9 hours a week, earning \$14.42 for his work. The bulk of the students worked from 10 to 12 hours a week, with 22 per cent in the 11 to 20 hour category, and 26.9 per cent in the 21 to 30 hours group. 18 students, or 5 per cent worked from 31 to 40 hours, with none working more than 40 hours. 15.8 per cent worked less than ten hours.

The proportion of students working has remained fairly constant, just over or under 30 per cent since the study was first made in 1950, with the exception of 1951, when 35.8 per cent worked. The average number of hours worked has varied between 16 and 19, highest in 1952. The average weekly income, however, has shown a steady increase from \$10.12 in 1950, increasing some each year to the present \$14.42 average.

The total income for the students during the year was almost \$5200.

Volleyball applications are still available and may be obtained by contacting the Arlington Park Department.

### Local Sportsmen Attend Meeting

The December meeting of the Middlesex County League of Sportsmen's Clubs Inc. was held on the last Thursday of the month at the Concord Rod and Gun Club.

Sportsmen attending this meeting had the opportunity of hearing the new Director of the Division of Fisheries and Game, Charles McLaughlin, gave his views on the stocking of pheasants and hare. Mr. McLaughlin stated that he saw no reason for discontinuing the pheasant stocking in this state as there did not seem to be any other bird that would thrive as well. In regard to the stocking of hare, he stated that the Division would continue to do so in a limited way as study of the situation showed that there was only a small area of cover that was suitable for the growth and development of hare.

Eleven members of the Spy Pond Rod and Reel Association attended the meeting and represented the largest delegation of any of the Clubs that had representatives present. Those attending from the local club were: President Austin R. Newell, Vice President Charles S. Johnson, Erna W. Chandler, Thurman F. Chandler, James L. Barry, Jack Keefe, Fred Bodemer, Jack Quinn, Philip Perkins, Ruth Perkins, and Fred Surette.

A movie on deer hunting in Massachusetts was shown by James Shepard, Acting Game Biologist of the Division of Fisheries and Game, which was very interesting and instructive.

Following the meeting refreshments were served by the host club.

## "March" Committee Plans Benefit Basketball Game

The March of Dimes Drive is now underway as reported by Chairman Robert J. Mahoney. An expense of more than \$35,000 was reported by the National Foundation of Infantile Paralysis for Arlington for the year 1955, or a total of \$25,117.41 was spent for these patients. The March of Dimes asks that every Arlington resident be a little more generous this year. The March of Dimes headquarters is located at 9 Mystic street.

On Saturday, January 14, a benefit basketball game between the Arlington Boys' Club team and the Arlington High School basketball team will be played at the Junior High West gymnasium. The game will be started at 7:30 p.m. followed by a square dance.

The Arlington Boys' Club team has had an outstanding record up to date with their spirits mount-

ing for this game. Captain Dick Bowler will lead his team assisted by a squad composed of: Dick O'Connell, Jack Bowler, Bobby Bowler, Paul Leonard, and Dave and Bob Crowley, Ollie French, Charley Leveroni and Charles Daley. The team is coached by Dave Crowley, Sr.

George Lowder is getting his squad ready for the big battle. Captain Don Beardsley, Charley Piggott, Joe Madagan, Rickie Crowley and Bill Birtwell round out the first team. Those in reserve, but expecting to see action are: Leo McSweeney, Jack Young, Paul Parr, Joe Skenderian, Dick Morel, Steve Tavekelian and Tom McKenna. The team, up to this date, has a record of one win and two losses.

Numerous door prizes will be distributed during the evenings events. A March of Dimes card will be handed out to all junior and senior high students in the Town of Arlington. The card, which contains six slots, should be filled in with dimes and handed in at the door. This will allow all observers the opportunity of receiving the prizes, according to Chairman Mahoney.

Remember, all donations are going to a worthy and beneficial cause.
